

Industry Currency & Reaccreditation

Ensure your skills remain current with industry-recognised refresher and reaccreditation training.

Delivery: Face-to-face training or private employer delivery

Online assessment available for select units/modules (36 month currency ONLY)

Location: Hallam VIC and employer/client sites where applicable

Availability: Courses scheduled fortnightly (12 Month Currency) / scheduled private delivery (12 or 36 Month Currency)

Duration: Varies depending on training requirements. As assessment is competency-based, duration may vary depending on participant experience and employer requirements

Assessment Methods: Practical observation and written activities where applicable

Cost: Contact us for a quote

COURSE DETAILS

OVERVIEW

ArbTrack delivers Industry Currency & Reaccreditation training aligned to Victorian Electricity Supply Industry (VESI) requirements and broader Electricity Supply Industry (ESI) expectations.

Training supports workers to maintain operational readiness, network requirements, emergency response capability, and workplace compliance.

Training includes both nationally recognised units of competency and non-accredited industry training modules.

Important Training Notice

This page contains both:

- nationally recognised training, and
- non-accredited industry training

Where nationally recognised training is delivered, participants who successfully meet the requirements of the unit will receive nationally recognised certification.

Non-accredited training and industry modules will be clearly identified.

SUITABILITY

This training may be suitable for:

- Utility vegetation workers
- Arborists
- Ground workers
- EWP operators
- Contractors
- Civil workers
- Utility field personnel
- Utility climbers

ENTRY REQUIREMENTS

Participants should:

- Have suitable physical capacity to undertake practical outdoor training
- Possess basic literacy and numeracy skills
- Be able to follow workplace safety instructions and procedures

Additional employer or network-specific requirements may also apply.

CERTIFICATION

Participants who successfully complete training may receive documentation relevant to the training undertaken. This may include:

- Certificate of Completion
- Statement of Attainment

Unless specifically stated otherwise, completion of training listed on this page does not result in nationally recognised certification or AQF certification documentation.

Where nationally recognised training is delivered, certification will be issued in accordance with the Standards for RTOs.

EQUIPMENT & PPE

Participants may need to supply personal protective equipment (PPE) and/or other equipment appropriate to the training being undertaken. Detailed requirements will be provided during enrolment.

INDUSTRY & NETWORK REQUIREMENTS

- Additional employer, electricity network owner, or state-based requirements may apply to maintain authorisation to perform work within the Electricity Supply Industry (ESI).
- Participants should confirm currency and reaccreditation requirements relevant to their employer, electricity network or state regulator.
- Nationally recognised units do not expire; however, employers, network owners and industry bodies may require periodic retraining or demonstration of ongoing competence.

12 Month Currency Requirements

Nationally Recognised Training (Accredited)

- UETDRMP015 Perform elevated work platform controlled descent escape
- UETDRMP016 Perform elevated work platform rescue*
- HLTAID009 Provide cardiopulmonary resuscitation
- UETDRMP010 Provide first aid in an ESI environment*
- UETDRVC010 Perform rescue from within a tree in the vicinity of live electrical apparatus*

**Denotes Pre-requisites required*

Industry Refresher (Non-accredited)

- Safe Approach Distances (SAD) – Powerline Vegetation Control

36 Month Currency Requirements

Nationally Recognised Training (Accredited)

- UETDRMP001 Apply access authority procedures to work on or near electrical apparatus*

**Denotes Pre-requisites required*

Industry Refresher (Non-accredited)

- SWER Awareness
- VESI Environmental Framework
- VESI Safety Framework
- Manual Handling

PRE-REQUISITES

Some refresher and reaccreditation units have prerequisite requirements or eligibility criteria. Our team will confirm your eligibility and any required evidence before enrolment
