

Chainsaw Operations Maintenance, Cross Cutting & Tree Felling

Hands-on chainsaw training focused on maintenance, safe operation,
cross-cutting and tree felling

Delivery: Face-to-face, classroom

Location: Hallam VIC, practical sites and employer/client sites where applicable

Duration: Varies depending on elective stream and participant experience. As assessment is competency-based, duration may vary depending on individual progress, prior experience and delivery arrangements

Assessment Methods: Written activities, practical observation

Intake Dates: Scheduled throughout the year

Cost: Contact us for a quote

COURSE DETAILS

UNIT/S OVERVIEW

ArbTrack delivers practical chainsaw training programs suitable for workers undertaking chainsaw operation, maintenance and tree felling activities across arboriculture, vegetation management and outdoor work environments.

Course Content

Training may include:

- Chainsaw inspection and maintenance
- Equipment checks and preparation
- Safe operating procedures
- Hazard identification and risk control
- Cross-cutting techniques
- Tree assessment and planning
- Basic tree felling techniques
- Environmental and workplace safety requirements
- Equipment shutdown and storage procedures

Training incorporates classroom learning, practical field activities and workplace-relevant assessment tasks.

Important Course Information

- Training includes nationally recognised units of competency
- As assessment is competency-based, delivery duration may vary depending on participant experience, performance and group size.

SUITABILITY

This training may be suitable for individuals undertaking chainsaw operation, vegetation management and tree work activities across arboriculture, land management and associated outdoor work environments.

This training may suit individuals working in:

- Electricity Supply Industry (ESI) vegetation management
- Arboriculture
- Parks and gardens
- Local government
- Grounds maintenance
- Property maintenance
- Community organisations
- Land management and associated industries

Programs incorporate practical training, safety procedures and workplace-relevant assessment activities.

ENTRY REQUIREMENTS

Participants should:

- Have suitable physical capacity to undertake practical outdoor training
- Possess basic literacy and numeracy skills
- Be able to follow workplace safety instructions and procedures

CERTIFICATION

Successful participants may receive:

- A Statement of Attainment for completed nationally recognised units

INDUSTRY & NETWORK REQUIREMENTS

- Additional employer, electricity network owner or workplace requirements may apply depending on operational activities and industry environment.
- Participants should confirm operational requirements relevant to their employer, workplace or industry sector.

EQUIPMENT & PPE

Participants must supply their own personal protective equipment (PPE), including:

- Head protection
- Eye protection
- Hearing protection
- Appropriate chainsaw protective clothing
- Appropriate footwear suitable for chainsaw operation
- Additional PPE requirements may apply depending on workplace or site conditions.

COURSE OPTIONS

Chainsaw Operations – Maintenance & Cross Cutting Overview

This program is designed for individuals requiring foundation skills in chainsaw operation, maintenance and cutting techniques.

Training focuses on safe chainsaw operation, routine maintenance, equipment inspection and cross-cutting techniques relevant to workplace and field environments

Units Included

- AHCMOM213 Operate and maintain chainsaws
- FWPCOT2273 Trim and cut felled trees

Chainsaw Operations – Tree Felling Overview

This program builds on the skills developed in Chainsaw Operations – Maintenance & Cross Cutting and includes training and assessment in small tree felling activities.

Training focuses on tree assessment, planning, safe felling techniques and associated workplace safety requirements

Units Included

- AHCMOM213 Operate and maintain chainsaws
- FWPCOT2273 Trim and cut felled trees
- AHCPM205 Fell small trees

PRE-REQUISITES

AHCMOM213 Operate and maintain chainsaws is a pre-requisite requirement for:

- AHCPM205 Fell small trees

Participants undertaking this program will complete the required pre-requisite training as part of the course.

RELATED TRAINING

- UET20321 Certificate II in ESI – Powerline Vegetation Control
- AHC30824 Certificate III in Arboriculture

CAREER OUTCOMES

Potential job outcomes may include:

- Grounds Maintenance Worker
- Parks and Gardens Worker
- Property Maintenance Worker
- Land Management Worker
- Ground Worker

NATIONALLY RECOGNISED
TRAINING
